Special Clause For Chemical In Bulk

Institute cargo clauses (A) excluding shortage risk.

Warranted that no transshipment is allowed

Notwithstanding anything contained in the Transit Clause of the Institute Cargo Clauses to the contrary, it is understood and agreed that this insurance attaches from the time the goods have passed the coupling of the pipe of shore tank at the port of shipment and continues thereafter as stipulated in the said clause, until the goods are discharged into the shore tank at the port of destination named in the policy.

Requirements for survey and analysis prior to commencement of voyage

Warranted by the Assured that:

- 1) the ship's (Including loading coastal tanker &/or barge)tanks be cleaned, tested and approved prior to loading of the goods,
- 2) the goods shall be analysed, gauged and weighted at port of loading (Including the port of loading into coastal tanker &/or barge)
- 3) tanks of loading coastal tanker &/or barge be cleared out and dried up in full at completion of loading of the goods onto overseas vessel and
- 4) the satisfactory certificates as to above mentioned surveys and analysis be given by Lloyd's or other Authorized Surveyor

Requirements for survey after arrival at port of discharge

Warranted that:

- 1) Our Authorized Surveyor shall take sample of the goods at time of discharge and shall generally supervise the weighing, gauging, measuring and other operation for determination of condition of the goods, either prior to or during, or at completion of discharge from the overseas vessel.
- 2) the ship's tanks be cleared out and dried up in full at completion of discharge from the overseas vessel into shore tank and
- 3) the satisfactory certificates as to above mentioned surveys be given by our Authorized Surveyor.
